

The Western Sugar Cooperative
(Grower Owned)

ELECTRICAL INSTRUMENTATION TECHNICIAN

The Western Sugar Cooperative is one of the nation's largest manufacturers and distributors of refined beet sugar, "Nature's Sweetener". The Torrington, WY facility has an immediate job opening for an E/I Technician. This will be an \$18.32 - \$21.67 hourly, full-time position with benefits. Shift work will be required for a minimum of four months per year.

Job requirements include a high school diploma or equivalent. The successful candidate will have experience in instrumentation calibration (with both electronic and pneumatic instruments), the ability to troubleshoot, calibrate and install pressure transmitters, control valves, analyzers, and temperature transmitters and thermocouples, and the ability to troubleshoot and program PLC's and DCS's.

The job requirements include, but are not limited to, troubleshooting 480VAC & 120VAC transformers, motors, and controls and maintaining/repairing mechanical and electrical equipment. Knowledge of / experience with factory processes and equipment is desirable.
