

The Western Sugar Cooperative
(Grower Owned)

IT Director

Corporate Office - Denver, CO
Position reports to CEO

The Western Sugar Cooperative is a sugar refining/manufacturing company with over \$300M in annual sales. We distribute beet sugar, “Nature’s Sweetener”, to both industrial and consumer customers under the GW brand and private labels to major regional grocery and retail stores. Headquartered in Denver, CO, Western has operations in CO, WY, NE, and MT. We are currently seeking an **IT Director**, for our Denver corporate office located near Hampden & I-25 and close to light rail. Please visit our website, www.westernsugar.com to learn more about our company.

General responsibilities

Reporting to the CEO, the Director of IT is responsible for providing leadership and management for the technology systems and services. Due to the size and culture of the organization, this hands-on director level position does include active participation with the following:

- Create a vision on how technology supports current and future business processes
- Develop and implement a technology strategy to support the business functions
- Ability to analyze project needs and determine resources needed to meet objectives
- SAP application processing, troubleshooting, and support
- Manage the day-to-day operations of the department

Qualifications

- **Direct hands on experience with SAP application processing is a must** with emphasis on the following SAP modules:
 - Sales & Distribution (SD)
 - Material Management (MM)
 - Finance and Controlling (FI/CO)
 - Logistics Execution (LE)
 - Asset Management (AE)
 - Project Management (PM)
- A bachelor's degree in Computer Science, Computer Information Systems, Management Information Systems, Business, or related field from an accredited University is required. A Master's or other advanced degree is an advantage.
- 5+ years experience in an IT leadership position, preferably in a manufacturing company of comparable size (\$250M-\$500M revenue)
- Strong background working with SAP and EDI
- Management knowledge of WAN and LAN infrastructures
- Experience in organizing, planning, and executing multiple large-scale projects from vision through implementation

Personal attributes desired

- Analytical
- Excellent verbal and written communication skills
- Articulate ideas to both technical and non-technical audiences
- Self-motivated
- Exceptional customer service
