WASTE WATER ANALYST

The Waste Water Analyst position at the Scottsbluff NE QC Lab is a full-time, benefit-rated position. Job requirements include a high school diploma; a college degree is preferred. The successful candidate must have good oral and written communication skills, leadership skills, and the ability to train others and give clear instructions. The successful candidate will need to demonstrate the ability to work without direct supervision, have proven positive time management skills and a commitment to safety.

Applicants must be proficient with Microsoft Office software and have enough technical knowledge to complete and maintain the State of Nebraska Waste Water Operator Certification and the Visible Emissions Evaluation Certification and must possess a valid Nebraska driver's license, and have a good driving record.

The candidate should have problem-solving and analytical skills and the ability to calibrate and maintain laboratory analytical equipment. The job requirements include being around moving machinery, exposure to temperature extremes, and performance of physical activities including, but not limited to, lifting, walking, flexing and climbing. Knowledge of/experience with factory processes and equipment is desirable.
