

## Finished Product Specification

### Sugar, 10X Powdered

Reviewed: January 02, 2024

#### Product Description:

Finely ground sucrose with corn starch added as anti-caking agent. This product is food grade and is manufactured in compliance with Federal Food Drug and Cosmetic Act, Codex Alimentarius and all applicable FDA and state statutes and regulations.

#### Properties (Methods available upon request):

|                            |                        |                       |
|----------------------------|------------------------|-----------------------|
| Moisture                   |                        | 0.5 % (max)           |
| Starch Content             |                        | 2.0 - 4.0 %           |
| Polarization (Total Sugar) |                        | 96.0 % (min)          |
| Odor                       |                        | No objectionable odor |
| Granulation:               |                        |                       |
|                            | On U.S. Std. #100      | 0.1 % (max)           |
|                            | On U.S. Std. #200      | 7.0 % (max)           |
|                            | Through U.S. Std. #200 | 93.0 % (min)          |

#### Shelf Life and Storage Conditions:

Powdered Sugar shelf life is a function of the storage condition. If stored in normal warehouse (60 to 70°F, 40 to 50% relative humidity) and not exposed to rapid fluctuations of either temperature or humidity, it will remain stable and soft for a period of two years from the date of manufacture. Longer storage periods could result in hardening of the product due to loss of moisture.

#### Ingredient Statement:

Sugar and Corn Starch

#### Country of Origin:

Produced and packaged in the United States of America

#### Microbiological characteristics:

Microbiological testing is performed on a GMP schedule; results are available upon request.

*\*Special orders can be considered to meet other specific standards*
